REFINERY IS PUT TO TORCH BY NIPPONESE

Australian Invaders Push Across Heavily Mined Areas Toward Borneo Oil Field

MANGGAR IS CAPTURED

By SPENCER DAVIS
Manila, July 6.—(P)—Australian invaders pushed across heavily mined areas today toward the last remaining Japanese-held oil field in southeast Borneo, guided by the towering fires of Koclasambodja, a large refinery and pumping station put to the torch by retreating Nipponese.

The battle-hardened Seventh Australian Infantry occupied the remaining Japanese-held part of Balikpapan yesterday, overran Manggar airfield in a five mile advance to the northeast and plunged on toward the great salt-marsh oil fields of the Samarinda district.

The Samarinda fields are approximately 55 air miles northeast of Balikpapan, now a giant junk pile of burned and blasted refinery equipment and oil pipes.

Koclasambodja, on the pipe line approximately halfway between Balikpapan and Samarinda, is on the coast.

Pitted and cratered roads from bombardments, booby traps and land mines left by the retreating enemy constituted most of the hazards encountered by the hard-driving diggers as they doggedly expanded their invasion area.

The capture of Manggar with its two 4,000 foot runways gave the Allies control of the only two worthwhile airbases in the Balikpapan area. Seppingsang airstrip, already in use by the Australians, fell early this week.

American minesweepers were busy clearing Balikpapan bay.

Columns of Aussies swept through the main industrial and dock areas of the port, then smashed remaining Japanese in the Pandansari refinery region on the left flank and sloshed through the swampy Pandansari river to the native quarters of the town.

A flanking movement from the ridges to the north knocked out Japanese field pieces which had been shelling the advancing diggers.

Pittsburgh Area Accumulates Meat

Pittsburgh, July 6.—(P)—Meat supplies are now accumulating in the Pittsburgh area and the problem is enough red points to buy them, wholesale and retail meat dealers said today.

Beef shipments have increased between five and ten percent since July 1 under the new regulation decreasing from 50 to 30 per cent the supplies set aside for the government.

A meat buyer for a large chain of Pittsburgh retail stores expressed belief that if the increase here rises to the full 20 per cent "we will have trouble selling our meat, unless the OPA decides to issue bonus stamps as has been done before for various food items which have jammed up."

Topeka, July 6.—(P)—Use of chlorophyll coloring matter which makes plants green, has performed "curative miracles" in an army hospital here, Oliver E. Ebel, secretary of the Kansas Medical Society, reports.

Canonsburg, July 6.—(P)—The Aluminum Company of America disclosed today it has been ordered by the Reconstruction Finance Corporation to close the airplane parts plant here which the company has operated for the government for two years.

New Canaan, Conn., July 6.—(P)—Major G. Ralsey Stevens, 3d, whose wife, Imogene, is awaiting trial on a manslaughter charge in the slaying of a young sailor, has arrived in the United States from Europe, his father announced today.

PIGEON PROBLEM IS BOTHERING PHILLY

Philadelphia, July 6.—(P)—Charging that "pigeons mate all the time," Dr. Rufus S. Reeves of the public health department, demanded that Philadelphia's pigeons be executed immediately.

City council has set Oct. 1 as the date of the opening of the anti-pigeon campaign, asserting that by that time the mating season would have ended.

Public health department officials said recent tests showed that pigeons here were infected with psittacosis (parrot fever) and virus pneumonia germs.

Bradley Named As Vets' Administrator

Washington, July 6.—(P)—President Truman today formally nominated General Omar N. Bradley to be veterans' administrator, and submitted his name to the senate.

The chief executive announced a month ago that he had chosen Bradley to succeed Brig. Gen. Frank T. Hines as head of the Veterans Administration. General Bradley now is in Europe but he is expected to return to Washington late in the summer.

Transatlantic Grants Raise Criticisms

Washington, July 6.—(P)—Rep. Shafer (R-Mich.) wants congress to inquire into whether Brig. Gen. Elliott Roosevelt's influence might have helped Transcontinental and Western Airlines, Inc. get a transatlantic air route grant.

Shafer told the house yesterday he made "no direct accusation, but I am forced to admit I am suspicious that some undue influence was brought to bear to cause the favorable reconsideration of TWA's application to fly the Atlantic routes."

Calling attention to award of Atlantic air routes yesterday to three companies, Shafer said that although two Civil Aeronautics Board examiners recommended last January that American Export Airlines, Inc., and Pan-Am, winner of Transcontinental and Western Airlines, Inc., and Jack Frye, president of TWA, as having been friendly with the son of the late president.

CANADIANS WRECK TOWN IN ENGLAND

Aldershot, England, July 6.—(P)—More than 100 soldiers were taken into custody today and a heavy guard was placed in this town, where Canadian troops have smashed windows in downtown stores two nights in a row in protest at delays in being sent home.

Where evidence warrants, the soldiers will be charged and court martialled, Canadian military authorities declared.

Military headquarters said the town would be cleared of troops as soon as possible.

The business district is littered with shattered glass and debris. In plain street not a single pane of glass remains. On nearby Wellington street every ground floor window in one of the town's biggest hotels has been broken.

War Agencies Bill Still Shuttling

Washington, July 6.—(P)—Like a commuting headache, the trouble-laden war agencies appropriation bill shuttled back to the senate today with little prospect of early settlement.

Virtually gutted by a series of parliamentary maneuvers in the house which removed \$618,000,000 of the bill's original \$732,000,000 total, the measure is giving the administration two concrete reasons for worry:

1. Until some sort of agreement is reached, the funds of ten highly important war agencies are held up, with payrolls to be met, supplies to be paid, and general expenses to be paid.

2. Senate consideration of the bill may run into a filibuster just at the time the foreign relations committee opens its hearings Monday on the United Nations charter.

HOLD TWO JOBS

Philadelphia, July 6.—(P)—Deputy Coroner Matthew A. Roth, also vice president of the board of trustees of Eastern State Penitentiary, said yesterday he would not resign his prison post unless the June grand jury recommends it. Roth was called before the grand jurors investigating committee at the penitentiary. A report issued by Miss Sophie M. R. O'Hara, state secretary of welfare, criticized him for holding both posts.

Japan Mobilizing Workers To Oppose Expected Invasion

San Francisco, July 6.—(P)—Japan has begun mobilization of civilian volunteer workers—both men and women—into combat corps to battle expected invaders of the home islands, Radio Tokyo revealed today.

The combat corpsmen will be members of the Imperial Army, but will continue their war jobs while awaiting the time when they may have to "engage in actual fighting," said the broadcast, recorded by the Federal Communications Commission.

FRAUDULENT DISCHARGES ARE ALLEGED

Existence of a "Complex Racket" To Aid First Air Force Officers In Transfers Revealed

COURT-MARTIAL MAJOR

Hempstead, N. Y., July 6.—(P)—Existence of a "complex, organized racket" whereby soldiers obtained "fraudulent medical discharges" and transfers from "hot outfits" due for combat duty was announced today by the First Air Force.

Free for discharges was "several thousand dollars," and somewhat less for transfer to safe, secure branches of the army, the Air Force Public Relations Office said in announcing results of an investigation begun last April into "irregularities" at Mitchell Field here.

The Air Force said the recent court martial of Maj. Walter V. Radovich charged with accepting bribes to keep two enlisted men in safe jobs "is not in any way connected with the present investigation."

The announcement did not give the number of men who had obtained the false discharges, but said most of them "were from units in distant parts of the United States and not connected with the First Air Force."

Evidence indicates, "the air force statement said, "that payments of money were made to certain unscrupulous civilians in the metropolitan area."

These civilians passed soldiers on "to military members of the conspiracy at Mitchell Field, who then effected completion of the fraudulent processing," the Air Force said.

The "cunningly planned and operated conspiracy" arranged to avoid detection, the statement continued, by mixing the fraudulent discharges in with the constant flow of legitimate ones obtained by wounded veterans flown here for processing and treatment.

Mitchell Field, an aerial debarcation port, receives 4,000 wounded a month from Europe.

No names were made public by the First Air Force, which said its investigation still was not complete. Court martial proceedings will be held later, it said.

"So far," the statement said, "there is no evidence to substantiate rumors of favoritism, by those in command authority," and the "complex pattern of manipulations" evidently was handled by "persons in lower levels."

Tale of Yankee Heroism At Sea

Washington, July 6.—(P)—Attacked by seven Japanese suicide pilots, the destroyer Newcomb bagged three, but was turned into a scene of wreckage by the others.

The Newcomb suffered 91 casualties, while another warship, the destroyer Leutze, counted 84 as the last Japanese fanatic skidded across the Newcomb and into the stern of the Leutze, which had pulled alongside to give aid. Both survived.

The navy, recounting another tale of American heroism at sea, said the battle blazed two hours late on April 6, when the Newcomb was supporting heavy duty units near Ie Shima, the Ryukyus off southern Japan. The suicide planes trickled through a screen of intercepting U. S. fighters which had blocked a very large formation of enemy fliers.

Virtually dismembered, the navy said the Newcomb, "seasoned veteran of Pacific warfare from the Marshalls through Iwo, is adrift today because her heroic crew, many with hair afloat and clothes burned off, refused to give her up even when all power and communication was lost and more than half of the ship was enveloped in flames."

G. I. ATTEND SCHOOL

Speculation Over Changes On High Court

Washington, July 6.—(P)—Owen J. Roberts' surprise resignation from the supreme court spurred speculation today that he may be followed soon by Chief Justice Harlan F. Stone, oldest man on the tribunal.

President Truman announced Roberts' resignation late yesterday to become effective at the end of this month. He has served on the high court 15 years, becoming its leading dissenter and often caustic critic of his colleagues' views.

Powerfully-built and pleasant, Roberts turned in a new high total of 51 dissents in the court term just ended. But close associates said he finished the term "very happy" in his work.

On his 70th birthday anniversary last May 2, friends said he had given no thought to leaving the bench.

Quaker City Has A Violent Storm

Philadelphia, July 6.—(P)—The most violent electric storm in recent years swept Philadelphia yesterday, causing thousands of dollars in flood and lightning damage.

Rain poured down in blinding torrents, damaging streets in some sections, marooning street cars and automobiles, flooding cellars and sweeping away manhole covers.

A man and woman narrowly escaped drowning when their car plunged into a low spot where the water reached almost to the roof. Children swam in the streets at many intersections, using the roofs of parked cars as diving boards.

Flames swept a trolley car hit by lightning, injuring nine persons. The storm, striking during the afternoon rush hour, marooned many workers on their way home in subways. Officials of the Philadelphia Transportation Company, fearing water might reach the third rail and cause electrical damage, shut off all power until the water receded or was pumped out.

VINSON TOPS SPECULATION FOR CABINET

Henry Morgenthau, Jr. Will Step Down As Secretary Of Treasury After Parley

ICKES PLANNING TRIP

Washington, July 6.—(P)—Henry Morgenthau, Jr., will step down as secretary of the treasury when President Truman returns from the Big Three meeting in Berlin.

At this time, several weeks hence, Mr. Truman will name a successor to the Dutchess County, N. Y., apple grower who has held the office 11½ years.

The chief executive told reporters yesterday he has a man in mind for his sixth cabinet appointment, but he wouldn't say who he is. War Mobilizer Fred Vinson topped a long list of names heard in speculation today.

Mr. Truman announced acceptance of Morgenthau's long-rumored resignation at another headline-catching news conference at which he also disclosed that:

Supreme Court Justice Owen J. Roberts will retire July 31.

He does not expect to accept the resignation of Secretary of the Interior Ickes who, in fact, is going to England soon to negotiate an oil treaty with the British.

He gave Mayor Fiorello H. La Guardia of New York permission to visit France on a personal mission, not as an agent of the government.

He appointed Edward O. Moran, Jr., of Maine as assistant secretary of labor, and elevated Jesse M. Donaldson to first assistant postmaster general.

The Big Three meeting will take place in about three weeks.

From now until Mr. Truman's return, Morgenthau will hover in a strange position, barring quick senate passage of house-approved legislation changing the order of presidential succession.

For although his resignation has been accepted, the treasury chief continues first in line for the presidency after Secretary of State James F. Byrnes.

The pending legislation would make House Speaker Sam Rayburn next in line after Mr. Truman.

Reservations To Charter Are Unlikely

Washington, July 6.—(P)—Senator Tom Connally (D-Tex.) predicted today that all attempts to attach reservations to United States ratification of the United Nations charter will be beaten down.

Saying that he had been informed that at least two senators plan to present reservations, Connally added to a reporter:

"I'm of the firm conviction that we shall be able to defeat all reservations and ratify the charter without amendment."

The house, meanwhile, arranged an 11 a. m. session to hear reports on the charter from Chairman Bloom (D-NY) and Representative Eaton (NJ) ranking foreign affairs committee. Both were delegates to the San Francisco conference.

"The new charter has all the machinery we need to make a brave (Turn to Page Nine)

Canning Sugar Supply Limited

Pittsburgh, July 6.—(P)—The Office of Price Administration said today 3,800,000 pounds of sugar has been allotted to the Pittsburgh area for July canning, and that the figure represents a one-third increase over last month's supply.

Sugar will be distributed to ration books they have issued and will be distributed by the boards to individuals who plan to do canning during July.

There was some doubt whether the supply would be sufficient to provide Pittsburgh housewives enough sugar to can 60 carloads of peaches which arrived over the holiday from the south, part of a bumper crop of 78,000,000 bushels.

District OPA Director Alvin J. Williams commented that sugar is not a preservative in canning fruits but "merely provides a delightful taste."

Australians Pay Tribute To Minister

Canberra, July 6.—(P)—Australia held a state service for its late Prime Minister John Curtin, and then the body was placed aboard a plane for a 2,000-mile trip across the continent to Cottesloe, for burial in his home town.

Men and women wept as the procession moved to the airfield with an army and navy escort.

Deputy Prime Minister Forde, who acted in Curtin's place since the latter fell ill, was sworn in as prime minister to direct the administration until the government Labor party meets next Thursday to select a successor.

Representatives of the United Nations joined with Australians in paying tribute to Curtin's memory at the simple rites, held in parliament house.

State funeral services will be held later at Perth, Curtin's native city.

It was reported that Gen. MacArthur would fly to Canberra to pay his respects to the prime minister with whom he was closely associated in the early stages of the Pacific war.

Bill Gives Postal Workers A Hike

Washington, July 6.—(P)—President Truman today signed legislation giving postal employees their first general pay raise since 1925.

For regular postal employees in so-called automatic grades, the legislation provides a 20 per cent increase in base pay, or \$400 a year, which ever is the lesser. In no event will the raise be less than \$300.

It changes the salary rates of postmasters by putting them on a basis of 100 per cent of the gross receipts of their offices instead of the present 85 and 90 per cent.

Postmasters in first-class offices, except those now receiving \$6,000 or more, will get boosts of from \$300 to \$400 annually. Second class, \$400 to \$600. Third class, \$300, and fourth class, 20 per cent of their present base, which now varies. Clerks in third-class offices working not less than 40 hours weekly are placed in automatic grades ranging from \$1,200 to \$1,700.

FARMS NEED HELP

Lock Haven, July 6.—(P)—"The national selective service headquarters should decide if it wants men or if it wants food," T. S. Doebler, Clinton county chairman of agricultural conservation, said yesterday.

Churchill Believed Winner; Parliament Control Uncertain

By DON DOANE
London, July 6.—(P)—The conservative press maintained today that yesterday's general elections had "almost certainly" resulted in a victory for Prime Minister Churchill's government but Labor party organs held the Conservatives had lost their absolute majority in parliament.

Results will not be known until July 26, after the absentee soldier vote is counted.

Observers agreed there was a near record turnout estimated at almost 24,000,000 voters—80 per cent of the eligible electorate of 30,000,000—lured by good weather and a hectic campaign battle between the conservative program of free enterprise and the Labor

HOME ISLANDS TARGETS FOR DUAL ATTACK

Ninety-two Iwo Jima Bombers, Led By Single Superfort, Raid Installations Near Capital

NEW SHIFT ANNOUNCED

By LEONARD MILLMAN
Associated Press War Editor
Startling evidence of American air might being hurled against Japan came today as Tokyo reported 250 U. S. planes made double strikes against the homeland for the third successive day.

Japanese sources estimated 11,000 Allied planes are pressing the attack against Nippon. American announcement disclosed:

1. Almost the entire Nipponese garrison was evacuated from Wake Island in a state of starvation testifying to the effectiveness of air and sea blockade of bypassed islands.

2. More than 120 square miles of Japanese industrial cities have been destroyed by Superforts. This includes newly announced destruction of 74 per cent of Tokushima, largest city on Shikoku island, knocked out in a single July 4 fire raid and 63 per cent of port 100 miles from Osaka.

3. The U. S. Fifth Air Force, which paved the way for Gen. Douglas MacArthur's return to the Philippines, has been shifted to attacking Japan in the first move of MacArthur's forces on the road from Manila to Tokyo.

San Francisco, July 6.—(P)—Two hundred and fifty American fighter and bomber planes striking from Iwo Jima and Okinawa bases hit the Japanese home islands in a two-pronged attack today for the third consecutive day, radio Tokyo reported.

Ninety Iwo-Jima Mustangs, led by a single Superfort attacked airfields and military installations in the Tokyo area, said the broadcast, recorded by the Federal Communications Commission. An hour later 160 Mustangs and Thunderbolt fighters from Okinawa were over southern Kyushu but were ordered to reconnaissance by bad weather, Tokyo said.

Lend-Lease Arms Sought For Pacific

Washington, July 6.—(P)—The senate war investigating committee today demanded prompt recovery of the lend-lease arms from European Allies for use in the Pacific war.

A report based on an overseas investigation by a subcommittee headed by Senator Kilgore (D-W. Va.) said "nothing has been done" along this line nor toward converting captured German arms against the Japanese.

Noting that legal titles to lend-lease materials rests with the United States and that master lend-lease agreements specifically provide for their return, the committee said failure to act constitutes "a lack of vigor and attention to our interests."

The report viewed the situation as one of "extreme urgency and serious implications," saying it is hoarding war costs and delaying reconversion by causing "manufacture of items identical with those now idle in the hands of our Allies."

platform of partial nationalization of industry.

The Daily Herald, Labor newspaper, claimed "the least optimistic forecast" gave Labor 296 seats in the new house of commons as against the 163 members it had in the dissolved parliament. It said "there were confident predictions that the Tory (Conservative) vote was a minority of the total cast."

The Conservative Daily Express said "most cautious" estimates gave a majority of 60 to 90 seats "for the government."

At the time of dissolution the 615 seats in commons, but with Allied parties it had a working majority of nearly 200 seats. With 640 seats in the new commons it will take 321 for a party or bloc to have a majority.

S/Sgt. Gordon Is Given Third Bronze Leaf

The third Oak Leaf Cluster to the Air Medal has been awarded to S/Sgt. Lawrence E. Gordon, of Warren, for outstanding achievement while participating in aerial flights which resupplied isolated ground troops at Bastogne, Belgium, during the period from October to December, 1944.

According to a special dispatch from headquarters of the 437th Troop Carrier Group in France, continuous delivery of critically needed supplies and air evacuation of wounded was accomplished in vulnerable aircraft in the face of enemy attack and small arms fire.

Sgt. Gordon, son of Mr. and Mrs. Richard M. Gordon, Sr., 1322 Pennsylvania avenue, west, entered at Erie in July, 1943. He is a radio operator on a C-47 Skytrain in the 85th Troop Carrier Squadron. Before going into the army he was employed as a welder at Struthers-Wells.

His unit, part of Brig. Gen. Beach's 53rd Wing, is a component of the Troop Carrier Force headed by Maj. Gen. Paul Williams. Climaxing previous aerial operations, the 437th made history in the Rhine airborne assault at Wesel, Germany, by being the first Troop Carrier unit to fly a double glider-tow formation into combat.

MEET IN ISLANDS

Sgt. William E. Brader and Pvt. Chester W. Anderson, brothers-in-law, and Lt. Phil C. Campbell, all of Warren, are enjoying a reunion somewhere in the Philippines.

IS AT KEESLER

Pvt. Quay R. Owens, husband of Esther L. Owens, 210 Hammond street, and son of Mrs. Willard C. Owens, 306 Laurel street, has entered the basic training center at Keesler Field, Miss., for several weeks of recruit drill.

HOME FROM GERMANY

Pfc. Chester L. Westfall, home after serving in Germany, is spending a 30-day furlough with his mother in Irvine.

RETURNED BY ATC

T/4 Amos E. Thomas, 26, of 13 High street, Sheffield, is reported among latest overseas veterans returned to Miami, Fla., by the Air Transport Command. With the Engineers, he has been in Italy for 32 months and wears both the Silver Star Medal and the Bronze Star Medal for gallantry in action and exceptionally meritorious performance of duty.

Further News Of Engineer Is Received

Additional information has been received here concerning the recently reported death in action of Pfc. John F. Lynch, of Titusville, formerly manager of the Quality Cash Store in the Hultberg Block.

Pfc. Lynch was wounded when he went to the aid of injured comrades, according to a letter from his commanding officer. He died on a hospital ship April 24 and is buried on Ie in the 77th Division cemetery, same place where Ernie Fyle lies buried.

His mother, Mrs. Margaret Lynch, has received the following communication concerning him from Capt. Robert L. DeMunck:

"I wish to express the sympathy of the entire command in the death of your son, John. John has been with us a long time and was highly thought of by the whole company. He was a fine soldier and an outstanding man. He could be called upon to do any task no matter how arduous or hazardous and could be relied upon to carry it through to a successful completion. Although he could have stayed in Leyte and not participated in this operation, he made a special effort to rejoin his company and his comrades. I wish to express my own personal sympathy in your loss."

"John gave his life while honorably serving his country on the island of Ie Shima, one of the Ryukyus chain. His engineers platoon was attached to a company of the infantry for the purpose of clearing mine fields and demolishing entrenchments. On the

morning of April 18, a heavy enemy mortar concentration fell in the platoon area, wounding several of his comrades. John got out of his foxhole and went to their aid. While he was giving first aid to one of the men, he was struck by fragments of a mortar in the legs and side. He was given first aid

and immediately evacuated to the hospital ship. I saw him before he left the beach and he was very jovial, and in good spirits and suffering no pain. He had the kind of courage that I admire. He was then taken aboard a hospital ship, where he died on April 24. John was buried on April 24 in the island cemetery, Ie Shima, Ryukyus Islands. Burial services were conducted by the Division Chaplain's office."

Mrs. Lucy Font, 1313 1/2 Pennsylvania avenue, west, received a telephone call Tuesday evening from her son, Sgt. Anthony W. Font, from Camp Millner, N. J., stating that he would be home Thursday or on Friday. "Honey," as he is known to friends, came in as part of Maj. Gen. Allen's famed 104th, Timberwolf, Division.

POSTWAR OUTLOOK IN GERMANY

We are indebted to a reader for sending us a copy of the current issue of the 83rd Division's "Thunderbolt", which carries a letter to the editor that deserves to become the editorial of the week. So here it is—an eloquent expose of a pertinent problem of postwar Germany and the postwar world:

The other day I walked over to the PW cage to see the Division's collection of supermen. Not looking for the stock Nazi perverts, this time I uncovered a few professional German army officers, the Junkers, and their would-be emulators among the junior Wehrmacht leaders, the scientific, coldly intelligent militarists who are "without politics"—the von Rundstedts and von Kesselings and the other little vons who fight without hate, but with an arrogance and contempt for life that among civilized people brands them insane.

While talking to a major-general and a lieutenant colonel, I asked the German officers what they intended to do if and when they were released. The young colonel answered in halting, but correct English that most professional German officers desired to fight in the U. S. Army against the Japanese.

This proposal so astounded me that for a moment I believed I was hearing things. When I recovered, I asked him the one-word question, "why?"

"What else is there for a professional soldier?" he replied. "But you don't hate them," I pointed out, "and you've been allied with them up until your defeat."

The colonel smiled at my "simplicity" and patiently explained his reasoning. "If we go back to civilian life, we'll be fortunate to earn a living in Germany. My wife and family are accustomed to a certain standard of living that I can't provide for them in civilian life. I've been an officer since 1933. That's the only training I've had and that's what I want to do. You are worried about trusting me against Japanese. But I am not a Nazi. I have no politics. You don't understand how I could fight against them when I don't hate them. I don't hate the Americans and I fought hard and well against them. I can do the same against the Japanese."

What does this reasoning mean? It means that there is a class of people in Germany who want to and must make a living at war. These men desire the loss of millions of lives so that their families can live in a standard of luxury that Hitler's war has accustomed them to.

When they talk about standard of life, they mean standard of life; they mean standard of death for others. When they talk about luxuries, they mean loot. When they say they have no politics, they lie—their politics is war. When they say they have no hate, they lie—their hate is peace.

THE PRAYER WING

Berkeley, Calif., Daily Gazette

The ferrying division of the air transport command has organized what it calls a "prayer wing." Civilians all over the country have become interested and keep writing to divisions headquarters with requests that they be permitted to enroll.

But all there is to do to join the prayer wing is to say once a day a brief prayer for peace. The idea is taking hold rapidly in all directions. A wordless aspiration serves the same purpose.

One B-24 gunner quotes a few lines which he and the other boys say daily:

"God of the evening, God of the dawn,
God of the morning, God of the light,
Keep our engines strong in flight,
And then, O Lord, let it be Thy will
That there come a day when we need not kill."

That is the answer to those who say that the Allies, fighting, are as bad as the enemy. The enemy has killed because of greed for land and for power. We kill only because we must. It is the constant prayer of our men that there may "come a day when we need not kill." Peace is our normal way of life.

The largest monthly rise in retail costs for "living essentials" since the same period a year ago took place during the monthly period ending May 15, when it jumped 7 per cent, Secretary of Labor Frances Perkins declares. The department's index is 128 per cent of the 1935-39 average, the highest during the war. Food costs are 2.9 per cent lower than in May 1943, but rose 1.6 per cent over the 1945 month, due primarily to advances for fresh fruits and vegetables. Clothing costs advanced .3 per cent.

The best part of Uncle Sam's tips to stay off the trains is the tips you save.

One safe prophecy is that before long Americans will know a lot more about the mainland of Japan.

You are invited and urged to attend the community Sunday evening church service at the Beatty building.

T-H-O-U-G-H-T-S

As one whom his mother comforteth, so will I comfort you.—Isaiah 66:13.

But now I am past all comforts here, but prayers.—Shakespeare's Henry VIII.

YEARS AGO IN WARREN

Interesting Items Taken From The Warren Evening Times

In 1925 Paul Fisher, of the Masterson Transfer Company, has just returned from a 1200-mile trip in one of his vans, moving one family to New York and one from New Haven to Warren.

Art Johnson, hurling mainstay of the Warren Collegians, has been notified by Manager Billy Webb to report immediately to the Buffalo Bisons in the International League.

Carl Davenport, 11, of Pittsfield, saved the life of Miss Georgia Anthony, also of Pittsfield, in the Brokenstraw Creek after she had gone under water and failed to come up.

County Commissioners E. M. Lowe, Henry Riddleberger, Edward Stewart and Clerk George Seavy will attend the State Association of County Commissioners convention in Erie.

In 1935 The Warren school directors have voted to apply for a grant from the PWA for a portion of funds to be used in work on the local school buildings amounting to nearly \$214,000.

Mrs. Clyde Orris, 511 West street, accompanied her son, Junior, to Camp Meade, Md., where he will enter the Civilian Military Training School for the summer months.

At the July Council meeting, further plans were voted on to ask an appropriation from the federal administration to secure land and erect a new municipal building.

Miss Dorcas Hall, representative in India of the Women's Foreign Missionary Society of the Methodist Episcopal church, is home on a furlough visiting her mother, Mrs. Edward Hall, Cottage Place.

Interesting Eclipse of the Sun to Be Visible Here On Morning of July 9th

Early risers on Monday, July 9, will witness one of nature's grandest spectacles, an eclipse of the sun, a sight not seen here for many years.

Beginning at 7:08 a. m., the moon's shadow will move across the face of the sun, reaching its middle peak about 8:04 a. m. Celestial affairs will be back to normal again in this area at 9:07 a. m.

The eclipse will be 66 per cent effective in this region. A total

eclipse of the sun can be viewed only from the narrow path of totality, seldom more than 100 miles long.

At Scoresby Sound, on the east coast of Greenland, the total eclipse will be the longest, one minute and 16 seconds. Here also the path will have its greatest width, about 55 miles. However,

practically every one in the United States and Canada will be able to see at least a partial eclipse.

During the eclipse, the sun's outer edge, the corona, will be plainly visible. Red flames of hydrogen and other gases, shooting out from the sun of heights of hundreds of thousands of miles, may also be seen.

Observers have been warned not to look directly at the sun with

Bonds Over America

OLDEST BUILDING

The adobe Palace of the Governors in Santa Fe, New Mexico, constructed in 1610, is called the oldest building in the United States. It served as the capital of New Mexico until 1911, almost 300 years. U. S. military might amassed with War Bond funds has protected this shrine from the destruction that befell many such historic buildings in Europe. Buy more War Bonds to enable our boys to continue slugging it out to protect America's historic shrines. U. S. Treasury Department

Presidents Prefer Piscatorial Pastime

Remember Harding angling for sailfish in the Gulf Stream; Coolidge fishing for trout on Wisconsin's Brule river; Hoover angling in New England streams, and FDR pulling in those big ones off Florida's coast? Now it's President Truman who proves to be one of the country's 12,000,000 anglers, fishing for salmon during his recent visit to Washington. Above layout shows all these presidents in action, with Truman and FDR, left to right, above, and Hoover, Harding and Coolidge, in that order below.

Washington Daybook

By JACK STINNETT

WASHINGTON—When more than 17,000,000 copies of a booklet have been distributed in 30 years, and it has reached a circulation of more than a million a year, that's publication news that needs some digging into.

The booklet is *Infant Care*, first published in 1914. It has been revised and brought up to date three times; the latest printing is just off the presses. Millions of mothers who were "brought up by the book" are now bringing up their children by it. The Children's Bureau of the U. S. Department of Labor, which publishes the booklet, calls its popularity "a little on the side of the phenomenal, with results incalculable."

The booklet caught on almost from the first. Public health officers and doctors distribute it; department stores give it away with layette and baby carriage purchases. Congressmen have mailed out copies by the hundreds and mail order demands roll in by the thousands.

VETERANS of the Children's Bureau recall that when *Infant Care* was first published, it was considered a daring venture. In some circles it was scorned. That the government should try to tell parents how to feed and care for their infants was considered at best an encroachment on a professional field.

However, Julia Lathrop, first chief of the Children's Bureau, was a vigorous crusader. The object then, as now, was to bring out a simple, inexpensive work

on the general care and feeding of babies. Most of all, no effort was to be spared to make it authoritative. Staff pediatricians wrote it, but it's reviewed and revised by outstanding pediatricians, nutritionists and child psychologists before it ever goes to press.

IT WAS almost completely rewritten in 1929, 1938 and 1942. There are only a few modifications of the last edition in the one now rolling off the presses.

Some of the ideas in the first version now make amusing reading, so completely have ideas been discarded or ways of living changed. Disciplinary measures, by-the-clock feedings, bedtime schedules and clothing all have changed considerably since mothers began poring over *Infant Care*. Baby's dresses and petticoats "no longer than 10 inches below the feet" now seem as old-fashioned as a bustle.

Since these "radical ideas" were first drummed out in the government pamphlet, the number of babies who die in the first year of life has dropped from ten to four in each hundred. The Children's Bureau justifiably claims that it has contributed something. (Single copies of *Infant Care* may be had free from the Children's Bureau, U. S. Department of Labor, Washington 25, D. C. They may be had at 10 cents, with a reduction in price on bulk orders, from the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C. Please do NOT send orders to this newspaper.)

Employees Of Penelec Will Debate Wage

Johnstown, July 6—(P)—Whether Pennsylvania Electric Co. employees will accept an average 6 1/2-cents-an-hour wage increase awarded them last Tuesday by the Regional War Labor Board or will appeal to the National WLB for a larger increase was to be decided at a meeting of the workers' system council here today.

The council is composed of two members from each of the six AFL Brotherhood of Electrical Workers locals to which company employees belong—at Clearfield, Brookville, Erie, Oil City, Bradford and Johnstown.

The system council was to decide whether to appeal the RWLB ruling and whether to call a strike vote authorized by the union in a recent NLRB ballot. Plans for a strike, to have been called last night, were postponed indefinitely after the RWLB award.

W. Eugene Sayers, international representative of the union, said the wage increase asked by the workers represented equalization of rates throughout the 17-county area served by Penelec.

The union and the company, Sayers said, agreed to an increase in the key rate from \$1.10 to \$1.18 1/2 an hour. The RWLB award, he said, raised the key rate to approximately \$1.15 an hour.

Retroactive pay to Nov. 26, 1943, was included in the RWLB award. Sayers said this money—about \$250,000—has been deposited in Johnstown banks by Penelec and will be paid as soon as the award becomes final.

Chappel Now Heads Police At Youngsville

Youngsville, July 5—At the meeting of Youngsville Council held this week, J. E. Chappel was appointed temporary chief of Police for a thirty day period. He will fill the place made vacant by the sudden death of Chief of Police, Frank Dunkle. Mr. Chappel is not new at the work of the local police as he has served at times as an extra member of the police force.

Borough signs at the Borough limits are now being repaired and painted. The parking spaces in the Borough have recently been marked by freshly painted lines.

Several building permits were issued. There was some discussion concerning the installing of Fire Alarm Boxes within the business section of the Borough. This matter is to be given further consideration.

NEW FIRE TRUCK

Youngsville's new fire truck constructed by the firemen and now brightly painted in red is much appreciated. Everyone hopes it may not be put into actual use right away but it has been driven about town several times and is greatly admired. Few towns of the size of Youngsville have as good a volunteer fire company.

"RIVERSIDES
didn't come on my car
I CHOSE THEM!"

Your neighbor's Riversides didn't come on his car; he chose them himself . . . to replace the tires he found on his car as "original equipment"! He is one of the millions who have chosen Riversides deliberately in preference to the brands that come on new cars, as well as all other famous makes! Why? For the same reason that makes so many car owners switch to Riversides today:—

More **MILES-OF-SAFETY ON RIVERSIDES**

TODAY . . . Riversides are actually stronger than Wards pre-war tires! Each ply is stronger because each cord is stronger to begin with; then chemically-strengthened to stay strong, to provide greater protection against blow-outs!

METHODIST PLANS

At the meeting of Youngsville Methodist Official Board held Monday evening in the church auditorium, plans were made for the 4th quarterly conference of the year which will be held on the evening of Wednesday July 25th and will be opened with a church Fellowship dinner to which all members and friends are invited. Rev. J. A. Galbraith, District Supt. will speak as well as conduct the meeting following the dinner.

Elton Barton, chairman of the Methodist Organ-Chancel Committee explained very fully the plans of chancel improvement for which blue prints were shown. The fund for organ and chancel improvements is growing.

LOCALS

Waldo Anderson and Clifford Sample are spending this week in New York City.

The Methodist Men's Father and Son dinner is scheduled for the evening of July 12th with Gurney Ball's camp the place of meeting.

Mrs. Donald Barton and Miss Marjorie Aaron left Tuesday morning for Pittsburgh and Oakmont, where they will visit relatives and friends.

Youngsville had a very quiet 4th of July. There were some fam-

ily parties in town and picnics on Island park.

The following new books are now available at the Youngsville Library:

China to Me—Emily Hahn; The Sea is so Wide—Eaton; The Green Circle—C. Massie; The Strange Case of Lucile Cleary—by J. Shearing; Lusty Wind for Caloline—L. Fletcher; Forlorn River—Grey; The Ox-Bow Incident—W. W. Clark; Canal Town—Adams; The Short Bible—Goodspeed and Smith; The Philosophy of Santayana—Irvin Edman; The Writing of Ralph Waldo Emerson.

VISITING GROOM'S PARENTS

Mr. and Mrs. Adrian Mix, who were recently married in Shreveport, La., are now guests of Mr. Mix's parents, Dr. and Mrs. G. E. Mix of W. Main street, Youngsville. They expect to spend a few weeks here and later this summer will go to Venezuela where Mr. Mix is employed with an oil company. Adrian knew Youngsville as his former home, and many friends are glad to welcome him and his bride to Youngsville for a visit.

BUTTER BACKING UP

The serious "back-up" of butter supplies which was predicted here three weeks ago by local food store operators who said the supply was too plentiful and that it was not moving because consumers did not have the points with which to buy it, has developed. Thomas P. O'Hearn, district director for the Department of Agriculture, has recommended a reduction in the present requirement of 24 points a pound. On June 26th there were 1,538,000 pounds in storage in this district and three days later this had increased to 1,818,000 pounds. The rate of the "back-up" of nearly 100,000

pounds a day is certain to force action almost immediately, dealers believe.

OUT THOSE WEEDS!

Every year at this time the coppers sort of give the vacant lots the once over to see if the rag weeds, the golden rod, etc.,

which carry the pollen that causes hayfever to sneeze are doing alright. Then out comes an ultimatum "Cut Those Weeds!" And if the property owner doesn't cut 'em along comes some borough employ with a whetstone and scythe and down come the weeds. "But that Ain't all" says the cop-

pers "in a little while you get a bill plus 10% of handling that sort of pins your ears back". So folks it's really cheaper to cut the weeds.

Sight For the French

In the shadow of a picturesque 11th century chateau, located at St. Germain-en-Laye, France, and once occupied by Louis the Fourteenth, Cpl. Helen M. Carlson, 830 West Fifth avenue, Warren, and hundreds of her sister soldiers passed in review to climax an impressive ceremony celebrating the third anniversary of the Women's Army Corps.

Passing the reviewing stand, Cpl. Carlson turned "eyes right" to General Carl Spatz, commanding general of the U. S. Strategic Air Forces in Europe, who took the salute. Ranged in the background were hundreds of French civilians, who were seeing American women soldiers on parade for the first time. Flags of the United Nations snapped in the afternoon sun, and American aircraft wheeled overhead to round out the colorful scene.

Cpl. Carlson joined the Women's Army Corps in January, 1943, and arrived overseas on D-Day, June 6, 1944. She is serving as a telephone operator at Air Technical Service Command headquarters, having been employed as Bell Telephone Company operator before going into the army.

She is the daughter of Sgt. Anna M. Carlson, who quit her job as typist in a state office to enlist in the Women's Army Corps on October 5, 1943, and is now stenographer in an Air Force unit office in Paris, France. She has only recently won her new stripe.

Another daughter of Sgt. Carlson is Miss Mildred, taking Army Nurse Corps training at St. Francis Hospital in Pittsburgh, while a fourth, Mrs. Frederick Aumer, lives at the family home here.

Endocrine helps give most women a younger-looking face and throat

Seems too good to be true, doesn't it. But it's a fact. ENDOCREME, can, for most women, help improve the skin itself, not merely its superficial appearance. For thousands ENDOCREME... with its 8-year record of success... is getting results hitherto thought impossible through use of cosmetics. This is because it contains ACTIVOL®.

ACTIVOL®... a great modern achievement... is a scientific replacement for woman's own natural, skin-vitalizing substance. When ENDOCREME is absorbed by the skin, it helps to restore the normal growth of cells and tissues. Thus, most skins tend to take on new youthfulness, to become fresher, firmer, smoother, more alluringly beautiful again. Isn't this the best way you can invest your cosmetic dollars? Many report vast improvement in only 30 days.

Hit Parade And Square Dancing Feature Party

The Hit Parade floor show will be a new feature at tomorrow night's community young people's party at Beaty school. Square dancing will be tried for the first time and promises to be a popular innovation. Leon Toner will call for the square dance figures and music will be provided by A. C. Anderson and his daughter.

Bill Clinger will M. C. for the floor show and Bill Dobbs' orchestra is furnishing the music for the specialty and also for dancing on the outside court. Hit Parade vocalists include two quartets, The Four Serenaders and the Melody Men; a duo, The Finley Sisters; and a soloist, Joan MacDonald.

The Melody Men, first quartette to appear in a community party floor show, were also on a community recreation broadcast over WJTN, and appeared at Warren's floor show at the Rec in Jamestown. The quartette is made up of Ray Reed, Jim Scalse, Louie Bonace and Bob Gerardi. Appearing with the community party favorites, The Four Serenaders, are Allene Lord, Susie Mathis, Dot Maines, and Jean Lee. Johnny Knapp is the accompanist for the Melody Men; Patty Graebner, for the Serenaders; and Chuck Cochener for Joan MacDonald.

Performers in tomorrow night's floor show are reminded that members of the decorating committee, due at the court tomorrow afternoon at two o'clock. They are Joan Brindis, June Grey, Nancy Lee Plummer, Jean Sellers, Patty Almendinger, Gretchen Radspinner, Versal Wade, Nancy Hesch, Helen Walker, Dolores Walker, Marilyn Dobbs, Nancy O'Dell, Donna Mullen, Lorna Morris, Barbara Cochran, Jane D'Angelo, Martha Winans, and Nonie Finley.

A new plan has been worked out for cleanup after party. Lee El-lis is chairman and is being assisted by Louie Lowe, Bill Houston, Ronnie Massa, Bill Meyers, Warren Lowe, Dick Bean, John Elliott, Jim Albaugh, Johnny Tucker, Don Scalse, Jim Zock, Dick Smith, Frank Kabot, and Dick Dickinson. Members are to report to Lee promptly after the party closes at the soft drinks bar for instructions. Anyone reserving a table and chair is required to return them to the gym as soon as the party is over.

The party starts at 8:30 and closes at 11:30. There will be supervised games in one-half of the gym and square dancing in the other.

Gestapo To Get You If You Fling Garbage Into Streams

Burgess Ray Steber at the last Council meeting pondered long relative as to "who dun it" when report was made that folks are still flinging their garbage into the streams of the town. The Burgess threatened to turn loose the "Gestapo" and he has done

that very thing. Strict orders have been made to run down the thrifty souls to save one simoleon a month by hauling their garbage to a quiet spot and hurling it into the drink. Its gotta stop, too.

Chief of Police George Haehn this morning issued a proclamation in which he declared that he is assigning several of the sleuths to run down the folks who use the streams for a dump. When arrested the folks are going to be fined to the full limit of the powers of the magistrate and the coffers of the borough will be running over.

But take a tip, better sign up with the garbage man to have him move the garbage and don't toss a bag of potato peelings, tin cans, etc., off a bridge. It's liable to be darned expensive.

The Romans practiced rain-making by spilling water from large jars taken around in procession on a cart.

Chapter 22
WHEN Dr. Fred Bliss arrived at Winston Manor that evening John met him at the front door.

"Fred! Fred!" he cried, all agitated. "Come into the den; I want to have a little talk with you before Madge joins us."

"A good idea," said the doctor, as he placed his medical bag on one of the hall's massive chairs.

"I hoped we'd have this chance," said John, as he quickly closed the den door. Despite his worried countenance he looked particularly handsome in his dinner clothes. The doctor, as was to be expected of him, wore his usual business suit. He noticed, with professional eye, how John's hands trembled as he lit a cigarette.

"John," he said quietly, "I told you were in for a shock when you saw Madge, but don't let it tear you to pieces."

"I can't help it, Fred," said John. "You put it mildly when you said 'shock.' It's more than that. It's a terrible catastrophe!"

The doctor patted his shoulder sympathetically and asked gently, "You're still in love with Madge, aren't you, John?"

"More than I know," Then John said angrily. "But I must be pretty dumb if it's taken all this to make me realize it!"

"Then I take it for granted," the doctor reflected delicately, "that Miss Drew is out of the picture?"

"Completely!" said John. "John," asked the doctor seriously, "may I make a very personal suggestion?"

"I'm wide open and you know it."

"When Madge snaps out of this," he said in a soft tone of voice, "why don't you suggest adopting a child?"

"That's what we should have done, years ago," said John thoughtfully, "then this would never have happened."

"A child would insure your future and brighten the atmosphere of Winston Manor."

"You're right, Fred." Then John said aloud to himself: "I'd cer-

tainly rather adopt a baby with Madge, than—" he winced as he recalled what Madge had said that very morning, "than have Winston Manor overrun with sweet, stunning little Winstons."

The doctor gathered what John meant by his odd remark and remained silent.

John rose to his feet and slowly crossed to the den's large window and looked out; when he spoke his voice was deep with emotion.

"Thanks, Fred, for the suggestion."

MARLO stood preening herself in the one and only long mirror in Madge's bedroom. It was surprising how much her shimmering white satin nightgown resembled an evening gown, except for the telltale evidence of two daring splits up each side of the flowing skirt, which revealed at her every move, Madge's well-shaped, trim legs.

Marlo had not only doused Madge with her potent Lotus Petals perfume, but had done a complete job of plastering her face with make-up. Madge, for the first time in her life, which of course, she didn't know, looked glamorous but cheap. Marlo, who didn't live up to "do unto others as you would have them do unto you," had done a complete job of snooping through every nook and crevice in Madge's bedroom; during her exploring spree she found hidden in one of the drawers a small leather jewel case and was quite annoyed when she found it locked. After hunting high and low for the tiny key, she impatiently pushed a buzzer, which summoned Magnolia from her kitchen chores. Madge, who was far from being spoiled or demanding of the servants, seldom used the buzzer, which at the moment brought Magnolia running, thinking something terrible had happened to her honey-chile.

"Something wrong, honey-chile?" panted Magnolia, as she entered. Then her eyes popped open at the startling creature that stood before her.

"Say, what's the matter with you, anyway?" asked Marlo.

"Nothin' nothin', chile," said Magnolia, as her eyes welled up

with tears. "You looks, you looks —so sharp."

"Well, for heaven's sake, don't let it get you down!" said Marlo, picking up Madge's jewel case.

"Where's the key to this contraption?" she said.

"Where you always hides it, chile."

"I'll bite, where did I hide it?"

"In here," said Magnolia, as she fished it out of a small vase on the dresser.

Marlo grabbed it excitedly. When she had unlocked the leather case and opened it, her face dropped.

"What is this, a gag?" she asked as she rummaged through. "Don't tell me," she sneered, "these are the Winston jewels?"

"You never did see fit to let Master John splurge on you, chile."

"No?" said Marlo. "Well, before very long, I'll give him the pleasure of dripping me with diamonds, but in the meantime, I'll have to struggle along with these silly knick-knacks. Here," she said disdainfully, as she handed Magnolia a charming garnet necklace, "clasp this doodadde around my neck. From the look of it, it must have belonged to his great-grandmother."

"Dat's right, chile. You inherited the Winston hairlooms."

"Well, wasn't that big of them," she said testily, as she clasped on a garnet bracelet and brooch.

"And just to make sure nothing happens to their precious hairlooms, I'll donate them to the museum for safekeeping." Then she stepped in front of the long mirror again.

"Um," she said thoughtfully, as she looked over Madge's body. She's got a better figure than I thought."

"When do we eat?" asked Marlo, unexpectedly.

"Eat?" said Magnolia, who couldn't follow the sudden change into Marlo's conversation.

"Look, Petunia, eating is a very common, necessary evil, so suppose you weep yourself back into the kitchen, 'cause I'm not hungry. I'm starved!" Magnolia obeyed by weeping herself out of the room.

Church Notes

Pastor Hans Pearson will speak on "The Revised Law" for the Sunday morning service in Moriah Lutheran church in Ludlow and on "Genuine Faith" for the noontime Swedish worship. Thursday at 2:30, Martha Society members will meet at Wildcat Park with Bethany Missionary Society as guests. The same day, the board of administration will meet at 7 p. m. at the home of Adolph Johnson and the Brotherhood will assemble at the same home at 8 p. m. Work of alterations in the Sunday school room was started on Monday of this week and will provide much better accommodations when completed.

The gospel text for the Sunday morning sermon in St. Paul's Lutheran church will be Matthew 5:38-42, and the subject of the sermon will be, "Some Principles of Jesus Applied to Our Lives." No evening services will be held in St. Paul's during the summer months, the congregation joining in the community evening services.

Sunday morning at eleven o'clock at the First Methodist church the holy sacrament of the Lord's Supper will be administered. Loren Wright will sing Dudley Buck's "Fear Ye Not, O Israel" and Byron Swanson will play the following organ numbers: "Prelude and Fugue in C Major" (Bach), "Come, Ye Disciples" (Ashford), and "Postlude in D (Hesse)." The church school will convene at 10:00 a. m.

The Sacrament of Holy Communion will be observed during the morning worship period in First Evangelical church on Sunday, when Pastor J. C. Wygant's theme will be "The Wounds of Jesus."

REMINDER ABOUT CHURCH NOTICES

Again the Church Page Editor is obliged to remind ministers and church secretaries that changes in standing church notices on this page, as well as news items for the column of "Church Notes" must be received in the Times-Mirror no later than Thursday noon if they are to be used in the Friday edition.

Albright College Public Relations Head Will Speak

The Rev. Lester L. Stabler, director of public relations at Albright College in Reading, will speak at the 10 a. m. service in Salem Evangelical church on Sunday.

A graduate of Albright College, class of 1925, Rev. Mr. Stabler returned to Albright in March, 1943, as director of public relations succeeding the Rev. H. LeRoy Bringer. He also served as executive secretary of the Alumni Association of the Reading college.

During his student days at Albright, Rev. Mr. Stabler was active in many campus events and was awarded the coveted gold "A" at the Albright Evangelical

Rev. L. L. Stabler

School of Theology, from which he graduated in 1935 with a B. D. degree, he was president of the student body. He also has done graduate work at Bucknell University and at State College.

Rev. Mr. Stabler returned to Albright as director of public relations from a successful pastorate of the Evangelical Church at State College. In addition to his work as minister, he served as the college pastor of the Evangelical students in attendance at State College. He also served pastorates in Scranton, from 1935 to 1938, and in New Columbia, from 1938 to 1940.

Besides handling the publicity program of Albright College, Rev. Stabler serves on several faculty committees and as a member of the college Athletic Council.

CALABRESE AT WILDER FIELD, ALL-STARS HERE SUNDAY

NFOs Tackle Pleasantville At State Saturday; Former Erie Brabenders On Sunday

The National Forge will attempt to reinstate itself in the top ranking baseball circles of this section this weekend, having two opponents slated for its 15th and 16th games of the 1945 season.

The Pleasantville Northern Ordinance outfit, leading the league composed of Oil City, Titusville, and Pleasantville, comes to the State Hospital diamond tomorrow afternoon for a 2:30 engagement with the NFOs.

On Sunday afternoon at Wilder Field, the Erie Calabrese Club, formerly the Erie Brabenders, meet the Forge in the two teams second clash this year. The Brabenders dropped from the Glenwood League in Erie after a dispute, later taking over the Calabrese club, which was then in fifth place.

In the first Brabender-Forge clash at Irvine in the first part of the season, the Aldermen pushed home a 3-0 victory, although they were out in the game.

Bob Page, formerly with the Erie Sailors, is expected to oppose either Craig Bennett or Dick Hines on the mound. Page let the ball game slip through his hands last Sunday when he threw two wild pegs after hurling three flawless innings. He has won extensive acclaim in Erie for his "blooper ball."

Manager Emmy Morrison has not named his choice for the Sunday meeting, although it is expected that Bennett will take the call against the Calabrese nine and Hines the Saturday assignment.

The exact lineup for the Forge has not been decided, but Manager Morrison may resort to the 1944 lineup, with Dick Geigerich, Morrison, Natale, and Solock filling out the infield. This revision would leave center field to be filled.

For Erie, Torelli and DeFazio, left and center fielders respectively, are the speedsters. Both recorded a number of stolen bases in their first appearance.

Saturday's encounter is scheduled for 2:30, with the Sunday meeting at 3 p. m.

Bell Eyes the Title In LaMotta Meet

By TED MEIER
New York, July 6.—(P)—Tommy Bell of Youngstown, makes his Madison Square Garden debut against Jake LaMotta tonight in a scheduled 10-round bout that may determine his chances of gaining a welterweight title match with Red Cochrane.

A crowd of 10,000 is expected to sit in judgment of the 22-year-old Ohioan who won 29 bouts in a row (18 by knockouts) before Ray "Sugar" Robinson outpointed him early this year.

While Chick Werges, who guided Beau Jack to the lightweight title, is certain he has another champion in Bell, the Broadway betting fraternity has established LaMotta a topheavy favorite.

Nevertheless, Bell, who flattened Bobby Richardson and Chuck Hunter in his last two bouts, hopes to become the first to K. O. Jake. Promoter Mike Jacobs looks for a gross gate of around \$30,000 at \$8 tops.

Boy and His Idol

Nelson Gary, 4, of Los Angeles, who wants to be a ball player "just like Pete Gray," gazes admiringly at one-armed outfielder of St. Louis Browns in latter's dugout. While playing with the Memphis Chickies, Pete met the one-armed youngster and has taught him many tricks in playing with only "one wing."

St. Marys Baseball Loop—Knot Holers—Has Western Pennsylvania Stirred Up

(The following article about an eye-opening job of boys' baseball was written for the Associated Press by Jack O'Brien, editor of the St. Mary's Daily Press.)

By JACK O'BRIEN
St. Marys, Pa., July 6.—(P)—A crackjack job of organizing a schoolboys' baseball league—it's the brainchild of a Benedictine priest—is the talk of sports fans and civic leaders in western Pennsylvania.

In only one year the Knot Hole League's membership increased more than 100 per cent, reflecting the popularity it is enjoying here.

Last year 140 youngsters participated. Now there are 290—not bad for a community of only 10,000.

The league made its debut last summer under the watchful eye of the Rev. Father Boniface, O. S. B., assistant rector at St. Mary's church here. Father Boniface, a native of Pittsburgh, starred in baseball at St. Vincent's College in Latrobe and only an inherent desire for the priesthood kept him from pursuing a major league career.

Like the minor leagues, Father Boniface has the Knot Holers divided into five classifications. The classes are based on the age of the players, roughly as follows: AA, up to 13; A, up to 16; B, up to 19; C, up to 22; D, age 8 to 12.

Class AA games are played on Sundays. Other classes perform evenings during the week. There are 24 teams in the set-up.

The Knot Hole organization provides catching equipment and baseballs for the games. Individuals, local firms and fraternal organizations sponsor the teams, paying for uniforms, bats and practice balls.

The league has regular officers, with the field secretary scheduling games, providing umpires and handling equipment.

The league's success has stirred interest even outside of Pennsylvania. Arthur (Red) Patterson, National League director of public relations, wrote asking full details of how it operates.

Here's what James J. Long, publicity director of the Pittsburgh Pirates, has to say:

"Paw couldn't have been in any trouble, sheriff. I bought some Wheaties and he ain't been away from the table for three days." Good alibi. And a mighty good malt syrup. Bring home some milk, breakfast dish—that's Wheaties, fruit, and Wheaties, "Breakfast of Big whole wheat flakes, Roasted Champions." You may make a stay and toasted. Flavored with sweet at the table—tomorrow morning.

The Warren Independents, in quest of their third victory in as many starts, engage their toughest opposition to date Sunday when veteran Joe Nagle brings his collection of All-Stars to Russell Field for a three o'clock encounter.

The All-Stars, made up of players from Jamestown, Salamanca, Ashville, and surrounding communities, have played here twice this season, upsetting the National Forge, 4-1, in their first meeting, but losing a 5-4 battle the second time.

Manager Sam Cosmano stated this morning that Jim Rose, former Struthers hurler, will get the nod on Sunday, giving two-game winner Bob Schuster a much deserved rest. It will be Rose's first start of the season, and against the toughest possible opposition.

The Independents now hold two victories, a 16-2 decision over weak Mt. Jewett, and a 6-0 edge over Ashville. The spark of the Warren representatives has been the hustling infield, which is composed of all 16- and 17-year olds.

Mec or Corcoran will oppose Jim Rose on the mound. Corcoran pitched the Stars to victory over one Forge at the State in May. One of the highlights of the New York outfit is the speedy and almost flawless infield. Walt Mee, DuBois, Don Nagle, and Les James make up one of the section's first class infields.

Attendance at the first two games has been not too satisfactory, although the beerhalls have been fairly well filled at the two encounters. Warren fans have been clamoring for a team which would give the younger boys a chance, and now that they have it they're not doing too much toward its support.

Game-time is scheduled for three o'clock sharp. Pat Riley and Pikey Wright umpiring.

Moran Fights Montgomery Next Monday

Philadelphia, July 6.—(P)—Cpl. Bob Montgomery is "rarin' to go" against Nick Moran Monday, convinced that he will knock out the baby-faced Mexican who smashed his way to one of boxing's biggest upsets by outpointing the Bobcat last May 8.

Looking sharp and fit in army khaki, Montgomery checked in for his physical at 138½ pounds. "I've never felt better," said the Philadelphia Negro, recognized in New York, Pennsylvania and affiliated states as lightweight champion of the world.

Promoter Herman Taylor is looking for a sellout crowd at Shibe Park for Montgomery's homecoming. It will be the Bobcat's first fight since he entered the army in January, 1944.

The S. S. America, largest passenger vessel ever built in the United States, is now the transport U. S. S. West Point.

Postwar Cars Discussed By I. C. S. Expert

Scranton, July 5—Water vapor will be burned along with gasoline in the postwar cars. C. Ray Strouse, director of the automotive division of International Correspondence Schools, said today. "Motorists for years have been aware of better motor performance in damp or foggy weather," Mr. Strouse pointed out. "The reason is that the cooling effect of water vapor on pistons and cylinder walls helps provide more power by checking pre-firing. Various systems for sucking water vapor into the manifold have been devised, but not until a mixture of water and alcohol had been forced into aviation engines during the war was the effect thoroughly studied and understood." Best results have been obtained from injecting a fifty-fifty mixture of water and alcohol, Mr. Strouse said, adding that the power of low octane gasoline, such as is now available for civilian cars, can be greatly improved by the injection of this mixture at full speeds. Mr. Strouse explained that gasoline, subjected to great pressure in the cylinders of modern cars, tends to explode before it is fully compressed. Water gives the fuel a higher latent heat so that even under pressure the mixture does not fire until the spark passes through it. As a result, all the force of the explosion goes into driving the piston downward, rather than kicking back inside the cylinder with the familiar "ping" noticed on grades and under full power. Mr. Strouse believes that a water vapor injector will be a vital accessory in postwar cars as the trend is to advance compression rates to obtain higher power from smaller engines.

St. Marys Baseball Loop--Knot Holes--Has Western Pennsylvania Stirred Up

(From Page Ten)
burgh Pirates had to say: "You can't beat a league like this for giving the boys healthy outdoor exercise. The keen competition among the teams also gives it spice. The league may be the means of directing some boys into profitable baseball careers. There may be \$50,000-a-year men among the Knot Holes!" Joe Brehanay, Pirate scout, and Rosie Rowsell, Pittsburgh radio announcer, have also been loud in their praise of the league. The big day of the year for the Knot Holes comes when they are guests of the Pirates at a game in Forbes Field, Pittsburgh. This year they'll view the Giants-Pirates doubleheader July 18.

ANNUAL HORSE SHOW AT WILLIAMSVILLE, N. Y.

The fourth annual Horse Show, presented by the Williamsville, N. Y., Bit and Spur Club, will be held on Saturday and Sunday, July 21 and 22, at the club's grounds in Williamsville. Included in the Saturday feature event will be an all-western show, with equitation, stock and trail horse classes, and a novelty event. On Sunday, hunters, jumpers, saddle and pleasure horses will compete for awards. David W. Roberts, Hartford, Conn., an accredited judge of the American Horse Show Association, will be the official judge.

Accidental falls from ladders and stepstools in and about the home are responsible each year for about 200 deaths, and thousands of serious injuries in the United States.
